AT THE BOARDING-HOUSE.  
Mary had a little lamb,  
Its fleece was white as snow,  
And every place that Mary went  
The lamb was sure to go.

It went with her to board one time,  
Which was a bitter cup  
To Mary and her lamb, because  
The boarders ate it up.

DONNELLY AND HATFIELD MINSTRELS.

The Donnelly and Hatfield Magnificent Minstrels have been noted for the novelty and magnificence of their first part, and this year another stride in the march of progress has been taken. "The Evolution of Minstrelsy" is the designation of the first part, and the massive stage setting, with three great stairways leading down to the stage, with its elaborate embellishments, represents the minstrelsy of forgotten centuries. At the Washington Theater Friday, March 3rd.

### COUNCIL PROCEEDINGS

Council met in regular session last night, Mayor Stallcup in the chair.

The members were somewhat on their good behavior, owing to the presence of a handsome stenographer, Miss Lida D. Woods, reporting matter for the Bell Telephone Company.

The Mayor reported \$461.35 amount of license collected for the month of February.

The report of the Police Judge was as follows:

Fines paid.....	\$ 47 40

The report of the City Treasurer totals as below:

Total.....	\$12,352 28
Expenditures.....	10,319 28

The report of the Claims and Accounts Committee was as follows:

Total.....	\$1,041 32

The White School Fund received during the past month \$384.00; the Colored School Fund \$14.65; total \$398.65.

The following permits were granted—

William Means & Co., one-story metal sided paper-roof building on lot in the Sixth Ward for manufacturing purposes.

John Mahoney, dwelling house, corner of Sutton and Plister avenue.

A. H. Fearn, to alter the front in the building on East Second street extension.

City Attorney Wood was allowed \$10.40 as commission on fines.

Dr. Yazell, City Physician, reported the Almshouse in splendid condition, there having been three admissions during the month, one discharged and one died, leaving nine to be cared for.

Old bonds, Nos. 361 to 372, representing \$6,131.44, were burned in the presence of Council. John J. O'Donnell, City Agent, was allowed \$16.48, being 20% of amount of taxes collected by him during past month.

The Committee to whom was referred the matter of the Bell Telephone Company, seeking a franchise in the city, reported in substance what has already been published in THE LEDGER. The same was adopted and ordered spread upon the minutes.

Member Clooney asked and was granted the floor to explain why he opposed the action of

the Committee, which he did in a clear and concise manner. In passing it may be said, too, that Mr. Clooney is a pleasing and intelligent speaker.

Mr. Russell from the Fourth Ward addressed Council on the miserable condition of the streets—if such they may be termed—and pointed a way for the betterment of our thoroughfares. On his motion a Committee was appointed, said Committee to consist of the entire membership with the Mayor and City Attorney added; who shall report at next meeting of Council a mode by which the improvement can be commenced at an early date.

The subject of sidewalks was introduced by Mr. Short, who truthfully stated enough ordinances had been passed to fill a bushel basket. He wanted them all brought to the surface and placed in the hands of the Sidewalk Committee. He was tired of dilly-dallying with property owners. The matter was given over to said Committee which will meet tonight and report at next regular meeting its findings.

Mr. Ellet was authorized to have the city toolhouse in Limestone street insured. The License Committee was instructed to look after the matter of taxing stamp agents—presumably Globe Stamps. The same will be reported at next meeting.

Ben T. Smith was re-employed as Street Commissioner on same salary as last year.

An ordinance changing and modifying the license on pool and billiard tables and bowling alleys was read. On motion the rules were suspended and the ordinance placed upon its passage. The same was adopted as read.

The application for relief by Virginia Williams was referred to the Alms Committee.

Twelve \$500 bonds were authorized to be issued to take up \$6,000 worth of notes in Bank. The Chairman of the Ways and Means Committee was authorized to execute the city's note for \$400 for current expenses.

The Mayor and Chief of Police were authorized to purchase new chairs for Council Chamber, the present outfit having passed their day of usefulness.

Gaohke & Co. were granted privilege of erecting coal scales at their place of business in the East End.

The crossing at Commerce and Third streets was referred to Turnpike and Railroad Committee with power to act.

An animated discussion was precipitated by a member, stating that he was informed that Captain Plister charged for bringing cattle and horses across the river on free ferryage day—County Court Day. The matter was referred to Wharves and Ferryage Committee with City Attorney added.

Captain Horace Cochran addressed Council in regard to pulling hose carriages to fires by the streetcars. The Fire Committee was instructed to consult with the Streetcar Company in regard to the matter.

Nothing further appearing Council adjourned.

THERE is a bill before the Senate to create a  
Commission of five Senators, which shall in-  
vestigate and report at the next session as to  
the advisability of abolishing Breathitt county.  
It is not indicated what is to be done with Judge  
JAMES HARGIS, member of the Democratic State  
Central Committee, now in Jail at Jackson for  
the murder of JAMES B. MARCUM, or of Sheriff  
CALLAHAN or the other official murderers of the  
county. Perhaps if a few of these excellent  
citizens were "abolished," the county might  
stand; or its name might be changed to Goebel  
or Beckham.

## Political Pickings

### THE CASE GIVEN AWAY.

Louisville Herald.

Democratic and even machine organ though it be, The  
Kentucky Advocate admits—

"Hon. John D. Carroll of Henry county has been ap-  
pointed Commissioner of the Court of Appeals, an office  
created by the present General Assembly to expedite the  
business of the Court. The illness of Judge Cantrill has  
thrown more work on the other Judges than they can dis-  
pose of."

To get Judge Cantrill on the Bench some expert politi-  
cal skullduggery had to be executed. There is a close  
parallel between the Cantrill injection on to the Appellate  
Bench and the Goebel seizure of the Governorship. Goeb-  
el introduced his infamous election law as the first step  
toward getting the "nomination." The first step in the  
securing of the Appellate judicial "nomination" for  
James E. Cantrill was an iniquitous gerrymander of the  
Fifth Appellate District.

The second step in the Goebel effort was the Redwine  
brlgandage of the Music Hall Convention. The last step  
was the "contest" before the Legislature.

The second step in the Cantrill movement was the sand-  
bagging of the Fifth Appellate District Convention at  
Lexington. The last is the creation of a Commissioner  
to do the work Cantrill is also paid for, but incapable of  
doing.

Had Goebel's personal enemies spared him he had  
made, it must be admitted, an active Governor. But  
James E. Cantrill was an ill man when elected, incapable,  
in fact, of discharging judicial duties. He has since so  
remained. Thus the taxpayers of Kentucky see their  
highest Court translated into a hospital for family ties or  
a refuge for worn-out politicians.

Machines come high.

## The Ledger's Washington Letter

Special Correspondence Public Ledger.

WASHINGTON, D. C., March 4th, 1906.

This is Lent, but does one imagine from this  
that the National Capital has put on sackcloth  
and ashes and enjoys no cakes and ale?

Gay society has temporarily placed the decol-  
ette gown in moth balls, the penitential season  
is on, and from a hundred Churches and Cathed-  
rals arise the glorious music and the fervent  
prayer in behalf of a sinful world and a weak  
humanity, ever falling to the depths through the  
body and ever rising again to the celestial heights  
through the grace and spirituality of a merciful  
Redeemer.

In Washington, with Lent comes the advent  
of spring—a new life and a new world. The  
buds are already bursting on the trees, and soon  
the Capital City, with its 350 parks, will blossom  
and bloom like an enchanted garden.

This is all very true, but unless you have got  
the cash to foot the bills, Washington had better  
be cut out of your itinerary—or words to that  
effect.

Talk is cheap but it takes money to buy meal  
tickets.

However, Washington is a very desirable place  
to live in. Rent and entitles are not so high  
here, and if you wish to lose your job you may  
run in debt to beat the band, for "your credit is  
good" at all the stores; but when pay day comes  
every two weeks you are expected to pay up or  
you will be reported and your discharge results.

There are more restaurants and lunch rooms  
here than any place on earth. Some of the  
meals served for 15 and 20 cents are good enough  
for anybody. This is the home of the oyster.  
Thousands of bushels are consumed every day.  
Harvey's, the leading oyster restaurant, alone  
disposes of 100 barrels of shell oysters every  
day.

The shells from the oysters used in Wash-  
ington in one year would make a good shell road  
from Maysville to Washington, Ky.

The shells are used for making roads, filling  
in the piers and wharves, and they also sell for  
1 1/2 cents a bushel for making lime.

Public Printer Stillings is still lording it over  
his 4,000 employees and issues a new and arbitrary  
order every week. It requires \$7,000,000 a  
year to run the Government Printing Office, and  
in order to cut down expenses, Mr. Stillings is

## A Harvest of Facts From the Foun- tain Head

cracking down on the employees and by his new  
methods has made life in the G. P. O. a misery  
and a hardship to nearly all.

It's a singular thing to us that some of the  
Congressmen do not take this matter up and  
assert their former prerogative of having some  
say in regard to appointments in the Govern-  
ment Printing Office. The day is here when  
Congressmen have no say at all, and petty de-  
partment officials can turn them down and defy  
them with impunity.

And now the last straw—the free distribution  
of seed, which has always been considered a  
tremendous honor and a trump card by "the  
gentleman from Skodunk,"—is about to be  
abandoned and has already been unfavorably re-  
ported upon by the Hayseed Committee.

The public asks, What are we coming to?  
The would-be office-holder asks, Where am I  
at?

The "gentleman from Skodunk," What am I  
here for?

Ask President Roosevelt and he will tell you:  
"Look pleasant and study your Civil Service  
Manual, boys."

To H—— with Spain!  
And the next day it snowed!  
Wilson—that's all!

The very best and ablest speech I ever heard  
was that of Senator Dolliver of Iowa delivered  
in the Senate Wednesday, favoring the passage  
of the Railway Rate Bill. He spoke for two  
hours and twenty minutes, and all who care to  
should hunt up Thursday's Congressional Record  
and carefully peruse what Mr. Dolliver had to  
say.

Senator Foraker of Ohio spoke Tuesday  
against the measure for three hours. The  
Senator's speech was a very brilliant argument,  
but Dolliver skinned Foraker and "bung his  
hide on the fence" as Colonel A. E. Boone used  
to remark. Senator Dolliver is a large and dis-  
tinguished looking man and resembles Colonel  
Boone very much. But Senator Clapp of Min-  
nesota is a "dead ringer" for Boone.

Foraker is injuring his future political pros-  
pects by his stand on this popular question, but  
as he is closely identified with all Ohio railway  
interests, and as his son Benson is now a Cin-  
cinnati traction magnate, the able Senator is  
practically considered a railway attorney and  
probably is the most distinguished pro-corpora-  
tion lawyer in this country.

The new Railway Rate Bill and the State-  
hood Bill are very closely identified, and it might  
be stated that both involve the same old question,  
in re, "the Great Common People" v. the Standard  
Oil Company and the Railroad Corporations.

Westward the course of Empire takes its way!

The admission of Oklahoma and the Indian  
Territory as one state, and New Mexico and Ari-  
zona as another, is now looked upon as an as-  
sured fact within the next month. It is but the  
natural demands of National development, West-  
ern progress and the general trend of civilization.  
Public and private business and enterprises are  
either at a stand-still or in a chaotic state under  
the present status. Oklahoma and the Indian  
Territory possess agricultural and mineral riches  
undreamed of. The Five Civilized Tribes of  
Indians alone possess in their territory 450,000  
acres of the finest and most valuable coal, oil  
and asphalt lands on earth.

These mineral lands alone are now valued at  
\$50,000,000. The railroads have already gob-  
bled up 67,000 acres of these lands, under leases  
running for 25 years yet to come. But yester-  
day Congress passed a law, and the President  
signed it, which extends the "Tribal Relations"  
of these Indians indefinitely, and forever pro-  
tect, them from the rapacity of the railway and  
other greedy corporations.

This is a great victory for the Indians and is  
but an act of justice on the part of Uncle Sam.  
Like the buffalo, the Indian is rapidly passing  
over the Great Divide, and after extinction as a  
race awaits him.

The Indian with his pipe of peace  
Will soon have passed away;  
But the Irishman with his pipe of pipe  
Negotiable has come to stay.

It is told us by many of the white men here  
who are delegates favoring the statehood mea-  
sure, that the Standard Oil Company has at this  
time in the Indian Territory 6,000,000 barrels  
of crude oil stored in tanks upon which no taxes

are paid whatever. Under the proposed state organization, this oil, and all railroad and other property, amounting to hundreds of millions of dollars, will be taxed under the general law, and the joining of Oklahoma and the Indian Territory will usher into the American Union probably the greatest and wealthiest commonwealth ever admitted among the sisterhood of states. New Mexico and Arizona are larger, but not near so wealthy and fertile as the other two territories. New Mexico and Arizona may not be admitted as one state by this Congress. Seven states the size of Kentucky could be made out of New Mexico and Arizona.

Get on the "retired list" of the Army or Navy if you wish the snap of soft snaps. Of the officers now on the retired list 245 are Brigadier Generals, and there are scores of Admirals and Rear Admirals, retired, all living in ease and luxury on fat pensions amounting to several

thousand dollars a year, each. These old boys nearly all fought and bled for the Union and they deserve to meet "taps" with an extra allowance of grub and grog.

In the big Pension Building, where 4,000 persons are employed, there are many old soldiers and sailors, or their widows, employed, many of whom are so crippled by disease or wounds as to practically render them unfit for the lightest kind of employment. Yet, every morning at 9 o'clock you can see scores of these poor invalids hobbling and nearly crawling to their work. Many of the men are very aged and feeble; some have an arm and a leg both off, some with both arms or legs off. Some of them have to be pushed to the building in wheeled chairs by attendants, and in a few cases there are women, now old and semi-helpless, who even have to be carried or assisted to their desks and other places of employment in the great building. The Government is very good to these old people, and it is no exaggeration to say that there are now on the payroll in Washington 1,500 persons, who, from senility, disease or wounds, do not actually perform 10 days work a year. The Pension Building is called, or looked upon, as a safe retreat for worn-out veterans who offered their lives for their country.

We are unanimously in favor of giving a pension and a good Government job to every old veteran who wore the Blue.

There is small chance of the passage, by this Congress, of any big Rivers and Harbors Bill. Congressman Burton, who is Chairman of this Committee in the House, and who has the steering of the measure, is unfriendly to any sort of an adequate appropriation, and therefore the "Beautiful River" will continue to be locked by the ice and damned by the public until old Burton either dies or is defeated.

Our platform, more than ever, is: "The old Flag and an appropriation."

The House Committee on Public Buildings is understood to favor a bill carrying \$12,000,000 for new structures; but it is said that the Senate will raise this to \$20,000,000. It is also reported that the joint bill will regulate and re-

quire that in future all Federal Buildings shall not exceed two stories in height, and limits the maximum cost to \$500,000 each.

So within the next quarter of a century Mayville may expect to see another story added to her very handsome, commodious and centrally located Federal Building.

The historic "Long Bridge" over the Potomac river, a low, wooden structure built long "before the war," after over 60 years service, is now closed to all railway traffic and will henceforth be used for wagon and foot passengers. There are two new bridges spanning the river—the Pennsylvania, over which the C. and O. trains reach the city, and the magnificent "New Highway Bridge" for electric and general traffic. The latter is one of the largest and handsomest in the United States and is iron, stone and concrete throughout.

The \$5,000,000 Memorial Bridge, extending from the base of Washington Monument to the base of Arlington Hill, over a mile, will be constructed in the sweet bye and bye. A splendid boulevard, from Washington to Mt. Vernon, 17 miles in length, is also under consideration and part of same has actually been built. It is to be 100 feet wide and will cost \$30,000 per mile.

RESULT OF THE "ROBBER TARIFF."

The foreign commerce of the United States during the first seven months of the current fiscal year amounted to \$1,752,421,330, or an average of \$250,000,000 per month during that period. Should it continue at this rate during the remainder of the year, the total foreign commerce for the fiscal year 1906 would exceed \$3,000,000,000, a figure which has not been reached in any previous year in the history of our foreign trade.

Prof. S. P. Langley, Secretary of the Smithsonian Institution, general scientist and world-wide experimenter with aerometers and flying machines—which failed to fly—has passed to that region where, ere this, he has solved the great question of celestial navigation. He was a great man, but a learned crank, and stood at the top notch among the big men here. His funeral Saturday was attended by Chief Justice Fuller,

Speaker Cannon and many other prominent statesmen and jurists. Professor Langley spent \$150,000 of Uncle Sam's hard cash trying to demonstrate the practicability of his theories, all of which experiments ended in complete failure. The Government supplied him with all the money he wanted. He could always "raise the wind," but the real element never "blowed" to suit his new-fangled machines. His death probably prevented another "investigation" by Congress as to how he spent the money.

Colonel Dan Perrine is improving, after a week's illness.

County Court sale day and free ferriage brought an unusually good crowd to town yesterday. Limestone street was the scene of business activity in the trading line, with plenty of stock on the market, though not the best in the world. The thoroughbreds were shown off in Market street. Merchants reaped a fair share of business by the influx, and taken as a whole the day was profitable to a large number.

THOMAS GUILFOYLE.

After a sickness of five months, Mr. Thomas Guilfoyle passed away at his home in East Third street yesterday morning at 11:25 o'clock. His ailment was a complication of diseases.

He was born in County Tipperary, Ireland, February 17th, 1859, being 47 years old at the time of his death.

Immigrating to this country when two years old, he resided in Maysville and Mason county the balance of his life.

He was thrifty and frugal and had acquired considerable property. Years ago he served as a Policeman, resigning his office to go into business.

He leaves three children—Edward, Maggie and Essie, all nearly grown, a brother, Martin Guilfoyle, one sister, Mrs. John Ryan, three half-brothers and a half-sister, Mrs. Dan McFadden of Mt. Sterling.

The funeral will take place tomorrow morning at 9 o'clock from St. Patrick's Church with services by Rev. Father P. M. Jones. Interment in the Washington Cemetery.

Mrs. J. Barbour Russell and mother, Mrs. Belle Armstrong, are in Cincinnati to see Olga Nethersole.

Prayer-meeting at the Central Presbyterian Church Wednesday evening at 7 o'clock. The services will be brief, to enable all who wish to go to the 8:15 C. and O. train or to Miss Emma Campbell's to meet Rev. W. W. Akers and family.

The gage marks 19.2 and falling.

Deafness Cannot be Cured  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The entire time of the Court yesterday was  
taken up with arguments in the Pearce will case.  
Attorney W. D. Cochran spoke two hours and  
fifteen minutes for the defendants, making an  
argument that was the subject of many con-  
gratulations on the part of those who heard it.  
Following for the plaintiff came Colonel John  
R. Allen of Lexington, whose fame as a lawyer  
extends beyond Kentucky, and whose presence  
here attracted an unusual attendance in the  
Courtroom, many ladies being present. It is  
conceded on all sides that Mr. Allen's argument  
was one of the most forceful heard in our Court-  
house for many a day. He occupied nearly  
three hours, closing just in time to catch the  
last train for Lexington.

Hon. E. L. Worthington is making the closing  
speech as THE LEDGER goes to press; and at its  
conclusion the case will go to the Jury.

Misery—Awful Sight From that  
Dreadful Complaint, Infantile Ec-  
zema—Commenced at Top of his  
Head and Covered Entire Body.

### MOTHER PRAISES CUTICURA REMEDIES

"Our baby had that dreadful com-  
plaint, Infantile Eczema, which afflicted  
him for several months, commencing at  
the top of his head, and at last covering  
his whole body. His sufferings were  
untold and constant misery, in fact,  
there was nothing we would not have  
done to have given him relief. The  
family doctor seemed to be wholly  
incapable of coping with the case, and  
after various experiments of his, which  
resulted in no benefit to the child, we  
sent to Mazon, Ill., to a druggist and got  
a full set of the Cuticura Remedies and  
applied as per directions, and he began  
to improve immediately, and in about  
three or four days began to show a  
brighter spirit and really laughed, for  
the first time in a year. In about ninety  
days he was fully recovered, with the  
exception of a rough skin, which is  
gradually disappearing, and eventually  
will be replaced by a healthy one.

"Praise for the Cuticura Remedies  
has always been our greatest pleasure,  
and there is nothing too good that we  
could say in their favor, for they cer-  
tainly saved our baby's life, for he was  
the most awful sight that I ever beheld,  
prior to the treatment of the Cuticura  
Remedies. Mrs. Mabelle Lyon, 1826  
Appleton Ave., Parsons, Kan., July 18,  
1905."

### COMPLETE TREATMENT \$1

Complete external and internal treat-

Cuticura Soap, Ointment, and Pills, may

set is often sufficient to cure the most

all else fails.
